New Release From: YOUR NAME

Monday July 19, 2010

Dear Friend,

Why do things the hard way when we live in the Internet age!? Including making money!?

I love the Internet! The Internet has made life SO easy...in SO many ways. Not only for me, but for you too and so many others around the world.

Making money has become easier too, thanks to the Internet.

I make more money online now than I ever dreamed of! I work from home a few hours a day on my computer while I play around on Facebook and Yahoo Auctions looking for stuff to buy.

I go to bed and **wake up to see that I made $287 last night** when I was sleeping and...you know what? The feeling of making money from my computer never gets old! I love the Internet!

But it didn't always used to be this good...unfortunately. And, **it isn't this good still for a lot of newbies online**...even though it should be.

My Internet beginnings were slow. It took me over 6 months to make my first $5 sale. Sure I was happy when I made my first $5, but **I wanted more!**

I make much more than that now, but I **was hungry to make more money** when I was a newbie. Sound familiar?

The Internet Dream!

If I know you, **you have a dream of making money online**. You see and hear other regular people making money online and imagine yourself making money too.

Forget the "make $3000 a day doing nothing" lies and aim for something realistic. Maybe you'd be happy making just $5 a day or maybe you want to an extra $50 a day?

I'm not going to butter things up for you telling you that you can "retire early" like the typical "guru" would. I'm not like those gurus who only care about how much money you can unload on them.

I actually want to help you realisticly. I know there are heaps of people online who just want to **make a little pocket money** from their computer in thier spare time.

And I know the internet, and an extra **$50 per day is very acheivable**...even for a complete beginner.

What would you do with an extra $50 a day?

- Eat out at a fancy Chinese restaurant tonight....and every night!
- Buy a Playstation 3 next week....and a new game for it every week!
- Go to Disneyland with your family next month....and Knott's Berry Farm the following month!
- Pay the monthly car loan payment on a new supercharged sports car!
- Take your family on an overseas vacation this coming summer!

Some say that money isn't everything, but it sure makes life more fun! And guess what, making it can be fun too!

The possibilities are endless when you have extra income, and the chance to do so is right in front of you. It's called the Internet!

There are big bucks (and small bucks) being made on the Internet everyday! Why aren't you collecting your share?

Well it's time you start earning your share, and I'm going to help you.

No More Excuses!

Too many times I get emails from desperate people with high hopes of cashing in online and there is a common theme within all their problems.

They simply don't know WHERE or HOW to start and don't want to waste MONEY!

I had dozens of people begging me to show them ways to make money online. So I'm giving it to them.

I put together the ***"ALL-IN-ONE"*** resource that shows **even the most clueless newbie** where and how to start making money from scratch wihout any start up costs whatsoever!

Can You Really Make Money Easily? And Without Any Start Up Costs?!

Imagine if you could make money with such ease that ANYONE with a computer, internet connection and a few spare hours a day can do.

- ✓ 100% FREE or next-to-nothing start up costs
- ✓ Don't require a website of your own
- ✓ Don't require ANY technical knowledge whatsoever
- ✓ So EASY that a complete Internet newbie can do it
- ✓ No selling or marketing skills or experience necessary

NO BRAIN CASH

✓ Can be done part-time from home or anywhere!

Yes, that's exactly what YOU can do!

Another reason why I love the Internet is because it is possible for ANYONE to make money with, regradless of their skill level or experience.

"But Can A Broke Loser Like Me Really Do It?"

You'd be surprised at some of they guys I know who are making money online.

Take me for instance. I didn't go to university...I spend too much time playing with cars, going to karaoke boxes and checking my Facebook profile. If I can make money online, ANYONE can!

The only thing that all the newbies don't know at first is "HOW"!

They don't know how they can make some spare change doing easy tasks online. So that's where I pulled my brain waves (the few good ones that remain) together and came up with the best "how to make money online the easy way" guide I possibly could.

It doesn't matter if you're not smart, don't have any money, don't know a thing about computers or marketing, or can't spare a whole lot of time.

You Don't Need To Be A Magician To Pull Money Out Of Thin Air!

Thanks to the Internet and guys like me who show you how, making money online has never been easier!

The Biggest "No-Brainer" Is The Price...

Talk about "No Brainer" decisions. I've put the price so low on this set of 3 reports that you don't have to even think hard about buying them.

How much would you expect to pay for 3 volumes totalling 97 pages of all meaty "How-To" make money online from scratch "No Brain" methods?

$97? $67? $47? No Way!

People that have seen it already have told me that it **would be a steal at $47!** I could charge that and perhaps more like other so called **"gurus" who charge $67** and up for their over-hyped ebooks and schemes.

But, I'm not going to charge you that...no, I want it to be affordable for everyone.

That's why the price you'll pay today is a one time low payment of only ~~$47~~ ~~$37~~ $27!

I'd be willing to bet you've paid more than that for other ebooks that don't show you half as much as mine.

After you make the payment, you'll get to download the three volumes instantly and start trying out the methods inside and show you the path to **earning an easy $50 a day** (actually you'll be shown 10 easy routes!) with any one of the methods I show you.

So the no-brainer question is...

Would you trade $27 for 10 zero-cost methods that can easily put $50 in your pocket each day?

Like I said, you don't have to think about the price....because it's a "no-brainer"!
