PLR Article Reviews For Easy Affiliate Commissions!

RE: How to ramp up your affiliate commission with soft-selling!

From The Desk Of YOUR NAME.

When it comes to promoting products as an affiliate, there's nothing worse than NOT knowing where to start.

- **Do you start by blasting links all over the forums?...**
- Do you start by blasting emails to everyone on your list?...
- **Do you spam the article directories with sale pitches?...**

If so, then you're probably not getting the best results... if any.

You see, people generally don't like being sold to and have a naturally tendency to back away from hard sales people.

It's like a sales man knocking on your front door, when you're busy working on your business, and they've got a fake smile on their face with a pre-written sales script stored up in their head and ready to play. I don't like it and I'm sure you don't like it too.

Except on the web, you can just click the back button on your browser rather than standing there looking at the sales man, not listening, and you're just waiting to slam the door shut.

Now what if you were actually interested in buying something and you needed a second opinion from a friend, someone who has already bought the product and has first-hand experience with it.

Would you trust him/her? Would you trust them more than a sleazy sales man pitching you something you don't want?...

The principles are still the same on the web. People buy into people, not products. And when someone is giving an opinion about someone else and their product, the effect is much more powerful than selling directly.

This is what Reviews2Profit is all about.

Here's A Sample Review For Easy Banner Creator (Pays 75% Commission Via ClickBank)

Easy Banner Creator Review

If you would like to discover how to make quick and easy banners without having to hire a graphic designer and without having to become a photo shop whizz, then you should check out Aaron Danker's latest release at http://CLICKBANKID.bancreator.hop.clickbank.net.

The software on this site claims to help you to create 100's if not 1000's of professional looking banners in a matter of minutes. We'll find out the truth.

I came across Easy Banner Creator after searching for quite a while for a tool to help me with banner creation, and when I saw Aaron's site I knew that it was worth further investigation as I was aware of his success as a graphic designer and webmaster online.

Aaron has been making money with his graphic design skills for years and he has now decided to offer a software package to enable anybody, no matter what their technical or design skills, to create professional looking graphics that can turn into affiliate sales without having to ring the graphic designer first. I had known that banners were a great way to make money “back in the day” and had lessened in popularity for a while but they are now a great way to earn extra income and they can work really well on all manner of sites like forums, review sites and social networking sites.

After deciding to take the plunge and make my purchase I was soon using the three step software program and finding it a lot easier to use than I had previously thought. In step one you simply create your banner choosing from the 21 pre-set banner sizes and after spicing it up with whatever text and images you need, you simply save it so you can export it later on. There are a number of other features to choose from here too including a huge rage of images and icons, and you can also layer one message on top of another for that 3d effect.

After using easy banner creator for a number of weeks I’m really pleased with the results, and considering I’m the least technical or design orientated person I know I’m even happier with the designs I’m creating. After implementing the graphics on a number of ad campaigns of mine I am also noticing a steady increase in sales and opt ins so this is something I will continue to use.

I would recommend Easy Banner Creator for anyone out there in the market who wants to increase their profits with a proven system that is easy to use and can save you money on design costs.

Here's Another Sample Review For The GTP System (Pays 75% Commission Via ClickBank)

Google Traffic Pump (GTP) System Review

After numerous back breaking attempts to get more traffic to my site that ended in pitiful rewards for the efforts I was making in the last 6 months I am really pleased to have found something that actually works and I wanted to share it with anyone out there who is in a similar position at the moment.

What I am referring to here is the latest release from Aaron Danker at http://CLICKBANKID.gtpsys.hop.clickbank.net where he reveals some of the most powerful and up to date methods for driving traffic to your site with the launch of the GTP System.

Aaron has been making a great living online for a number of years now but like many of us, he failed on numerous occasions before he finally made it. The GTP System is what turned his fortunes around and it made his traffic counters register thousands instead of hundreds of visitors, putting him on the map in internet marketing success and creating financial independence for him. I had heard about his success on the warrior forum and I wanted to see if this system would solve my traffic woes so I gave it go and dived in.

After going through the content I download I discovered that the GTP System is basically made up of 5 parts. Starting out with keyword research in the first module, you then go on to formatting your questions into “traffic pumping questions”, before setting up your traffic funnel Gmail account. The final two steps involve setting up the Google alerts traffic pump and finally you are told how to get the traffic flowing. I found the videos clear and easy to follow and had no problem with any part of the process.

Having implemented what I learned from the videos in addition to the bonus tips that you get from Aaron for driving traffic to your site I have to say that I am more than pleased with the results, having increased the traffic to one of my sited by up to 300%.

If you are looking for a free way to increase your traffic at the moment and are open to following a simple proven system than I would have no hesitation in recommended the GTP system.

Here's Another One For Graphix With Impact (Pays 100% Commission Via PayPal!)

Graphix With Impact Review

A lot of your success online will come down to how well you can set yourself apart from your competition and one of the key ways to do this is to make sure that your graphics are a cut above the rest and stand out in the mind of your user. If you would like access to the types of graphics I'm talking about, you should check out Aaron Danker's latest product entitled, Graphix With Impact, right now at http://www.graphixwithimpact.com/?e=PAYPAL@EMAIL.COM

I have known for a while now that my websites needed sprucing up in the graphics department in order to get my marketing message across more effectively but I was not willing to continually pay my graphic designer to come up with new designs all the time. The answer to my quest for more effective graphics would come from a well established graphic designer, but this time I was getting a number of design templates that I could customise with my own marketing message and make a greater impact on my readers. Aaron Danker is the man behind Graphix With Impact and he has established himself as a highly skilled designer and web marketer, so I thought this product was an ideal place for me to start.

When I downloaded the content I received 6 premium designs all differing in look and texture that I could use on a variety of different sites and blogs that I own. A few of my favourites were the "treasure Template" that I could use to deliver powerful marketing messages and the "raw silk" template that I could use to deliver the marketing message on some of my premium sites. These were not just raw templates though, as I also received headers that I could customise, testimonial boxes opt in boxes and a download page with each template.

As with anything that I invest my time or money in I was looking for this product to give me some kind of return and I'm please to say that I was not disappointed as my conversion rates are already up on the sites on which I have implemented the new designs.

I would recommend Graphix With Impact to anyone who is seeking to get professional graphics on their site to boast its impact and conversion rates and to anyone who simply wants great looking graphics without the hassle of paying a designer.

You can check out the quality of these templates here http://www.graphixwithimpact.com/?e=PAYPAL@EMAIL.COM

✓ **Submit to article directories** – straight forward and simple. You register a domain such as 'bobsreviews.com' or 'sallyshonestreviews.com' and use sub-directories like '/1dayproductcreator', '/easybannercreator' or '/clickdraggraphics' as your affiliate links. Then submit the articles to your favourite directories, and add your affiliate links in the bio box. For example, you add an article on 'The 1 Day Product Creator' and then you finish off by saying... *'Visit the official site for more information... bobsreviews.com/1dayproductcreator'*. Not only does Google love articles, but webmaster too, and when they take your article and distribute them, who do you think will end up with the commissions?... You!

✓ **Set up a review blog** – add your affiliate links into the reviews and drip feed the reviews into your blog using an auto-posting plug-in (freely available) and let your site grow NATURALLY over time. Google will see this as a 'human' operated blog and will reward you with higher rank listings as a result, you'll get the important 'long-tail keywords' traffic and commissions!

✓ **Create an eBook or report** – use the content to create an mini review guide that tells informs entrepreneurs about the products. Add your affiliate links with each review and you'll get commissioned for the sales. You could give your guide away for free and even build your list at the same time! To really hit home run you could...

✓ **Add them to your auto-responder** – there's nothing better than to read a 'laid back' newsletter that calmly and honestly talks about a product without hard selling it. Your readers will appreciate this and your commissions will show for it!

✓ **Charge a branding fee** – Why not take it a step further and charge a branding fee so that other marketers can add their affiliate links into your report as well? You could set it up as an upgrade offer so that after they subscribe to your list for your report, you charge them branding rights. There's another source of income for you!

✓ **Create a downloadable PDF newsletter** – why not do one better than just an email newsletter? Compile each review into a PDF with your affiliate links, upload them to your server, and use your auto-responder to hand out the download links on a weekly or biweekly basis. Your newsletter could be entirely about honest product reviews and your subscribers will really appreciate it!

✓ **Create a ClickBank-Adsense website** – Use a simple website template, and add the reviews to your own ClickBank and Adsense-based website. Add your ClickBank affiliate links to the reviews and insert some AdSense ads that will bring in an additional source of revenue! And because these reviews are based around the 'make money' niche, you'll have ads that pay top rate for clicks! Who said Adsense was dead?... The people that don't make money with them?... Now you can use the raw content to create a themed review site!

You have permission to use the reviews as website content, and now you can sell the reviews as they are for other marketers! Your cost for creating the reviews... none. Your potential profit for selling them... unlimited.

✓ **Rebrand the reviews and sell them as conditional PLR** – webmasters need content. They want traffic just as much as you. Why add your affiliate links into the reviews first, and then sell them as plain TXT files with conditional PLR. That way webmasters get to use your content freely, but must keep the links intact. It's a great way to deliver content and get paid for it at the same time!

✓ **Create an MP3 recording** – either read the reviews aloud yourself and record it or hire a voice over artist for the job. Simply add your affiliate links into the reviews and when you or your voice-over artist reads the review they can finish of with… “for more information please visit the official site at… YOUR LINK”. It’s a great way to advertise your affiliate links!

✓ **Submit to podcast directories** – use the MP3 recording you make and submit it to the podcast directories! Everyone that downloads your MP3 review will know exactly where to go to for the official site! When they buy, you get the commission.

✓ **Give sample reviews away as a tell-a-friend gift** – you’ve seen those site haven’t you… “tell 3 friends about ABC and we’ll send you XYZ worth $497 absolutely free”.
