Doesn't it frustrate you when you want to write a new blog post, create a new product or record a video but don't even know where to start?

They say "Content is King", and so it is true.

You could have the most amazing-looking website on the 'net but if your content is mediocre then your visitors will never come back.

Content Rules!

If you're a blogger, video marketer, internet marketer, or an information product creator you've no doubt struggled with the question of content.

You can have the best ideas, but if you don't know how to use that idea to build quality content for a website, it probably won't be successful.

When it comes to your website, every part is important.

Sure you want the right font, color, design, etc. The most important part of your website, however, is your content.

Without quality content, your website cannot survive. It is important to remember —Content is everything!

When you first start your site, you give a great deal of time to picking out the perfect domain name. There's a reason you select a good domain name. It's where your site lives. If your website is your domain, then think of content as the king of that domain. In other words...content rules!
