All of us want to be able to earn an income without having to leave our house. It makes sense right? Who wouldn't want to have the freedom to work when they please and to live a better quality lifestyle.

We've heard the stories of those who are earning millions from YouTube and start to believe that they are the few who got lucky.

The reality is that **thousands** of people are generating **full-time incomes** from making YouTube videos!

There is absolutely no reason why you can't do the same.

### **Treating It Like A Business**

We are all capable of earning a solid income online but many of us go about it in the wrong way. If you expect to have full-time results then you need to put in a full-time effort. That means treating YouTube as your business rather than your hobby!

### **YouTube Is Simple!**

YouTube was designed so that even the least tech-savvy person can get started in creating their own videos. This is also true of making money with YouTube. Google has created the simplest monetization options, where in a couple clicks you can start generating money from the views your videos receive.

Any of us can generate money through YouTube.

But as we all know, simple doesn't mean easy.

While it isn't difficult to START, it will be impossible to scale your income and grow it effectively without proper guidance.

That's why you see so many small channels that are abandoned even though some of their videos have a couple thousand views.

**They couldn't scale it**, they couldn't transform those pennies into pounds.

But you can learn from my experiences and **make your journey easier**

I've put together a guide to share my tips to help you create your own income streams from YouTube.
