Feel free to change the fonts, font colors or styles, or anything else you want. Just make sure the font colors you choose will look good with the page's theme colors.

You get all the .psd files for the graphics. The footer graphic can, of course be changed if you have photoshop. If you don't have photoshop, I've included a blank footer graphic labeled "footer2.jpg". Just substitute the name of that file in the code.

I've also included some web 2.0 style colors you can use in the .psd files.

You have full, unrestricted Private Label Rights to this template, so, have fun!
