Dear Friend,

You've probably have heard of the term 'affiliate marketing' by now. If you haven't, no worries, I'll explain it in layman terms.

Millions of marketers all over the world select affiliate marketing when they start out online because they don't need to have a product to earn heaps of profit from!

What they do is promote a merchant's product, say, a lose weight ebook. When a customer is directed from their site to the merchant's site and he buys that book, the merchant gets the sale and the affiliate gets a cut, maybe 5%-20% of each individual sale.

Sounds simple right? Its no wonder both new and seasoned marketers prefer this method of marketing! However, since affiliate marketing has become the most popular form of marketing online, there have been self proclaimed 'experts' and gurus who offer ebooks and advice on earning money through affiliate marketing.

I've purchased a couple of their products and sad to say, have gone away angry and disappointed. The material they offer is utter rubbish and for those who do offer proper advice...it's slipshod! Come on, you don't tell a man how to fish but forget about telling him about the bait!

Worse of all, these people have the cheek to charge huge amounts of cash for a simple ebook less than 40 pages.

So I was pretty angry. The newbie marketer shouldn't have to fork out huge sums of money unnecessarily for these crap products.

The next thing I did was to go on a personal crusade to educate these newbie marketers on how to leverage effectively on the system of affiliate marketing to haul in loads of profit. So I spent a couple of weeks to research non stop, both from my own business as well as other sites to find a detailed step by step system that worked no matter who applied it.

After putting everything together I tested it for weeks and applied it to my own business. Suffice to say, after it has reaped me mountains of cash for 3 months straight I am going to reveal it to you now.
