

Does Choosing Products To Promote On Amazon Leave You Confused & Frustrated?

Do You Spend Hours Trying To Find Products That Will Pay Good Commission Whilst Trying To Cut Through The Ones That Will Only Pay Pennies?

If You Do Then This Offer Could Save You All That Time & Frustration

Hi

I'm not going to try and sell this offer to you.

You will know for yourself whether it's right for you or not.

If you're an Amazon affiliate and/or review site maker then this is **DEFINITELY** something you will be interested in.

So let's dive straight in and see what this offer is all about...

Choosing Products That Pay

You may have heard the saying before that "It's just as easy to sell a product for \$100 as it is to sell one for \$10". And the key to making more money with Amazon is to select products that cost more than \$100, are popular and have good reviews.

That's where Rapid Amazon Research comes in!

I have researched and found 50 products in 5 different niches where:

- ✓ All products cost more than \$100
- ✓ All have more than 10 reviews
- ✓ All reviews have an average of 4+ stars

But That's Not Enough

It's one thing knowing what products to target but you're also going to need some keywords to target.

No problem!

For each of the 5 niches I have researched the keywords for you.

You'll get lists for each niche that contain:

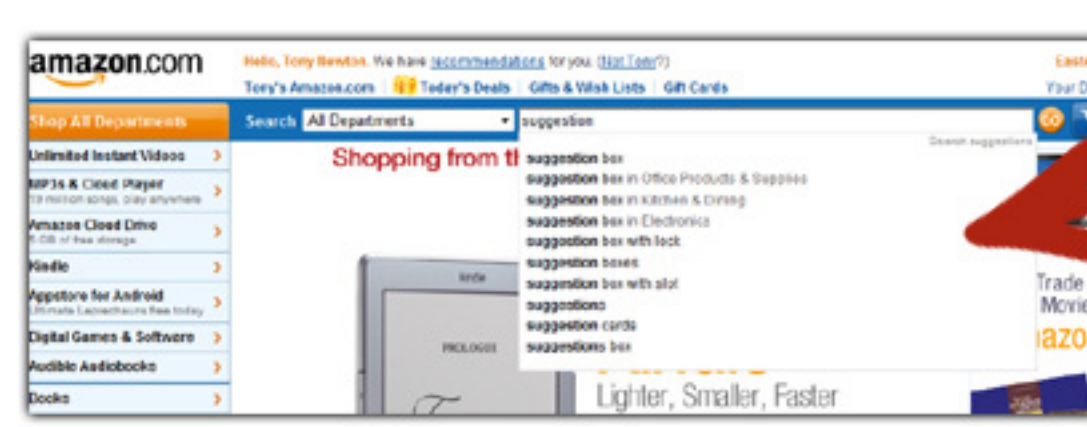

- ✓ Global number of searches
- ✓ Local number of searches
- ✓ Average CPC
- ✓ Number of Adwords ads
- ✓ Number of results in Google (Exact Match)
- ✓ Average number of links the top ten sites have in Google
- ✓ Exact Match Domain (EMD) availability for EVERY keyword

So you now know which products to target, which keywords to use AND which domain names are available!

But Even All That Isn't Enough!

Not only am I going to give you the list of products, the keyword lists and the exact match domain lists, I am also throwing in some crazy bonuses.

Crazy Bonus #1 - Amazon Suggestions

For each of the 5 niches, I am including spreadsheets of suggestions made directly from Amazon.com. These come direct from their search box suggestions and can give you great ideas for what people are ACTUALLY searching for.

Crazy Bonus #2 - 100 Most Popular Products

For each of the 5 niches, I am including spreadsheets of the most popular 100 products from the category. This will give you ideas of more products to promote for each niche.

The "I've Gone Mad" Crazy Bonus #3 - 50 Product Review Videos

I have made a review video for every single one of the 50 products. Each one averages between 1:00 - 1:30 minutes and shows the main features of each product. You get the .MPG for each one so you can add it to your own review site or upload instantly to a video sharing site.

I'll also give you the source files including Powerpoint slides and Camtasia source files so you can edit them for yourself.

So Let's Sum This WSO Up

I am handing you all the research you need to kickstart your Amazon income. This will save you hours of searching and frustration trying to find these products for yourself.

You'll instantly receive:

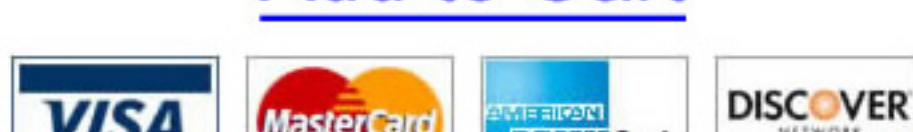

- ✓ 5 lists of 10 products in 5 different niches (no electronics). All products cost more than \$100, have more than 10 reviews and a rating of 4+ stars. The lists include the list price, sale price, number of reviews, rating, link to reviews and direct link to the products.
- ✓ Crazy Bonus #1 - Amazon keyword suggestions
- ✓ Crazy Bonus #2 - Most popular 100 products from each niche category
- ✓ Crazy Bonus #3 - 50 product review videos, one for each of the main 50 products
