## **Who Is Mike Filsaime, And Why Should You Care?**

I totally understand that not **EVERYONE** already knows who Mike Filsaime is, so I'm going to give you a short bio and you'll soon see why people line up to listen to what Mike has to say..

**PayDotCom.com** is perhaps the second largest marketplace for digital products on the Internet. Thousands of sellers use PayDotCom to market their ebooks and software, and thousands of affiliates make a living just by promoting the products on PayDotCom.

Guess who owns it?

In it's first week **Butterfly Marketing Manuscript** made **more than USD400,000** and became Clickbank's best-selling product in history.

Even today, this product is such a hot seller that some people base their entire business model just promoting and marketing it.

With the **7 Figure Code** (you must have heard of this!) Mike went even further and sold a few thousand copies of his \$997 DVD course in which he reveals everything he does to an eager group of six-figure marketers...

How much Mike really made this product I guess only he knows, but it's said to be a few million dollars in sales within the first month...

You're probably reading this because you want to be like Mike Filsaime (or at least anyone *like* him).

Well look no further my friend because your wishes are about to come true..

## Drastically Improve Your Chances of Surviving The Brutal World of Online Marketing

Let me tell you a little story.

As we were doing this interview, we were picking up words of wisdom all the way. But one incident stood out.

Mike said a few words that made such a tremendous impact on our lives that it literally changed our plans for the next 18 months!

All it took was a few words and it made all the difference!

**Imagine this:** If a few words can make such a huge impact, imagine what an entire audio session would do for you?

This is not the magic pill you've been waiting for, nor is it a beginner's guide to making money online...

Mike doesn't tell you stuff like:

- How to build a website
- How to edit HTML
- How to start a blog
- Etc etc..

You get the drift - this isn't about the technical aspects of building an online business. It's about something altogether much more critical for your success.

We didn't want to get a chance to speak to a millionaire and ask him such silly questions, to which you can find the answers easily on Google...

We wanted to ask him the really **IMPORTANT** questions. We wanted to know how he turned his life around from being stuck in a dead-end job as a sales manager, to how he managed to stay on course while building his online empire...

It's stuff like that, guys, that you can find anywhere else..
