

Want To Sell Your Own Information Products But Feel Daunted By The Prospect Of Creating One From Scratch? Let Me Introduce You To Resell Rights Products!

# "I'll Show You Exactly How To Source, Prepare and Use Resell Rights Products In Your Online Business..."

Dear Fellow Internet Marketer

There's a lot of money to be made with information products such as eBooks and reports...

People from all over the world have started highly successful businesses selling nothing but digital downloadable products.

But let's face it - creating them yourself is pretty damn difficult and time consuming!

If you've ever decided to write your own eBook and have sat there staring at a blank word processing screen then you'll know exactly what I mean.

But there is a solution...

**eBooks and reports that have already been created by other people that YOU have the right to sell.**

These are called resell rights products - and it's the very thing I'm going to take you through inside this report...

**You can literally take a resell rights product, upload it to your webspace and start selling it almost immediately.**

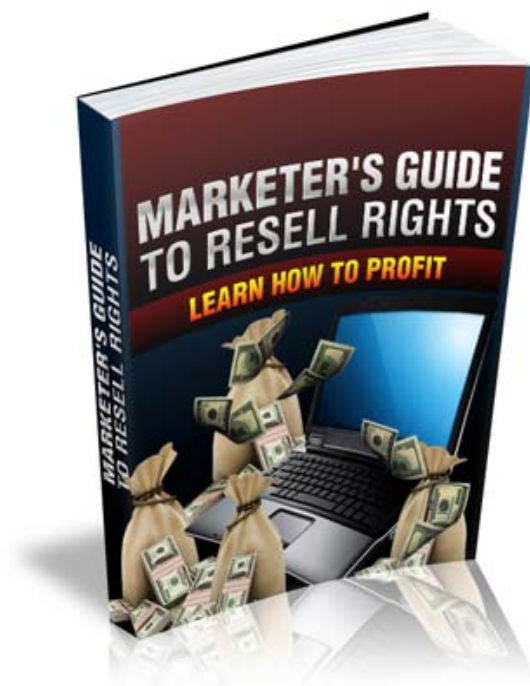

But it's not always quite that simple...

For starters not all resell rights products are created equal.

Sure, there are a lot of excellent quality resell rights products out there but there are also some pretty crappy ones too - and obviously the key is to choose the good products to resell.

There's also the issue of doing your research and preparing the product for sale. BUT if you know what you're doing then resell rights products can provide you with a huge shortcut towards getting your own information products online.

**In reality other people have already done most of the hard work for you - that's the beauty of resell rights.**

Here is just some of the information contained inside this report...

- **What are resell rights products?**
- **The different types and what they can do for you.**
- **How to choose your products.**
- **The best places to get hold of them.**
- **How to choose a niche (very important!)**
- **How to edit your products and upload them to the internet... Don't think you'll be left to figure out the technical stuff for yourself :) - I'll show you how.**
- **Other ways to make money with resell rights products.**

and more.
