Dear Professional Marketer,

One of the **beauties** of having your own Information Product is obviously making the sale **instantly** rather than having to wait for someone else to pay you your affiliate checks, and only a petty fraction of the product price on top of that.

And as long as you're creator of your own product, you own the **full rights** and in a real essence, you have the **license to decide your own profit potential**.

Which is **perfect**, of course, since you can also **brand yourself** in the process.

I've also come to know of marketers who publish their work offline, too, simply by converting their E-Books into hard copy paperbacks - **exploding** their income further.

And Here Are Even More Reasons Why You Should Have Your Own Info Product...

✓ **You can spawn more than one cash points** of your choice from your own Info Product, such as One Time Offer, back-end offers, and affiliate links within,

- ✓ Since you own the full rights to your own E-Book(s), **you can offer a "light" version** and either **charge a lower price** to those who can't afford a bigger investment, or even **give it away as a "cookie bite"** and **build your opt-in mailing list**,
- ✓ You can also offer your product in your own **paid membership site** or as a **bonus** to another product you are selling,
- ✓ **You can also earn more by selling the Resell Rights or Private Label Rights** to your product,
- ✓ **And so much more! Your imagination is the limit.**

All in all, owning **your own** Info Product or **line** of Info Products is one of the **best** choices you can ever make in your Information Marketing career.

But There's A Problem...

... and it's called **product development** or **product creation**.

However, believe me: selling your own Info Product is **too lucrative to be passed on** just because of this barrier.

So let's evaluate your **best** option possible:

Solution #1: Write Your Own E-Book(s)

Often times, creating your own Info Product demands **a lot** of writing skill, expertise, niche marketing research, and **incredible** knowledge on your part.

And if you don't have any flair or time for writing or you absolutely hate it, you will do well to leave this option out.

Solution #2: Hire A Ghostwriter

Some call this the "secret weapon" of gurus. Engaging ghostwriters can be one of your best choices... only if you can afford it.

And if you don't have at least a few hundred dollars to trust someone else to do the writing for you, you will have to leave this option out, too.

Solution #3: Purchase Products With Resell Rights

This can be a good and fast way to have instant products to resell and pocket **100%** of the profits. The downside, however, is that **you don't own the product**.

In other words, you can only do so much with the product as the ultimate copyright holder is the product author.

And If None Of The First 3 Solutions Are In Your Favor, Then...

... may I suggest that you **drop your product development chores** and **get your hands on...**

Not one, but **four (4) new, smoking hot Info Products** - all targeted at **hungry niches** - complete with ***no restriction* Private Label Rights!**

Yes, you've heard me right.

Contrary to most products out there where product authors are offering limited rights to their Private Label Rights, I am offering you **ZERO restrictions** to the usage of the Info Products.

In a real essence, **YOU can do anything you want with them - your imagination is the limit!**
