Dear Reader:

If you’re the kind of intelligent entrepreneur who’s been searching for simple and fast shortcuts to a reliable (and impressively large) monthly income then this will be the most excitingly important letter you ever read...

And if you’ve been discouraged into believing that a simple and fast shortcut doesn’t exist then this letter is even more crucially vital to your financial health...

You’re Just ONE Small Step Away From The Greatest Money Making Secret Of All Time

Those sorts of words get tossed around really easily these days, I know. They usually relate to some fantabulous new special-secret-tricky-tactic, invented by a pre-pubescent marketer in his mom’s basement. After making a few grand with this “secret,” he’s capitalizing on his one-time success by releasing it as the greatest thing since sliced bread.

The problem is simple: those types of success stories are based on luck, not on reliable and repeatable marketing techniques and business models.

**Do You WANT To Become Really Successful?
 Do You WANT To Actually Become Financially Independent?
 Are You Will To Try Something That Has Been PROVEN To Work?
 Even If It Means NOT Sucking Into The Latest Marketing Fad?**

Good, then you’ve come to the right place. What I’m going to share with you is proven, not new. It’s an age-old business model that works, not a new “theoretical discovery” that’s shiny and new.

In fact, promise me that you won’t **waste your money** on something new and nifty until you **invest your money** in something that’s proven to be **profitable**, alright?

The people who have achieved real, lasting wealth online are the people who have a monthly membership model at work for them...twenty-four hours a day...seven days a week...three-hundred-sixty-five days a year.

You may even be contributing to the wealth being created by one of these systems yourself by subscribing to a magazine or newspaper...receiving a paid newsletter from a marketing genius...paying for access to a membership-only website...

Ah, membership-only websites. The most recent version of the oldest ongoing income building technique in the world. Why is a membership-only website, with an ongoing monthly subscription cost, something you **need** to get up and going **today**?

· Dream-Fulfilling Monthly Cash Flow

With nothing more than a Wordpress site, which I’m going to show you **exactly** how to set up, you can experience true financial security. Imagine having 100 members paying \$20.00 each, per month...what would you do with \$2,000.00 a month income...every month? Imagine doubling your monthly fee to \$40.00...\$4,000.00 a month. Since your imagination is running, imagine having 500 members...\$20,000.00 a month. Yes it’s possible and it’s being done right now.

· Minimal Start-Up Costs And Overhead

Your site can be managed and run with absolutely no employees and, thanks to the walk-through you’re about to gain access to, you can setup your site for less than \$20.00...total. (Wordpress and plugins are free. You need a domain name - about \$9.00 and hosting - about \$6.00 per month) This is the only real business opportunity in the **entire world** that can provide you with that kind of a return-on-investment.

· Boundless Opportunities From Around The Globe

Thanks to the worldwide appeal of the Internet, you’ll have members from every corner of the globe. Imagine the excitement of having members come join your site...from places **you’ve never even heard of**. It happens every day and, soon, it’s going to be happening for you.

· Tiny Time Investment Required

Maybe you don’t realize that most membership site owners spend less than **ten-hours a week** maintaining their site. Really quickly, think about it...if you spend 10 hours a week...40 hours a month...generating \$2,000.00 in income...**that’s \$50.00 an hour**. If you’re generating \$4,000 a month...**that’s \$100.00 an hour**. Where else are you going to make that kind of money, month-after-month, from home?

· Captive Audience For Joint-Venture and Affiliate Sales

Even if you don’t have a single, solitary, product of your own...you can still generate additional income by recommending products and/or services to your members. Hooking up with other entrepreneurs allows you to harness the income skyrocketing potential of joint-ventures while simple affiliate links provide a reliable way to boost your income...whenever you want.

Does Any Of This Sound Even The Least Bit Appealing?

Gone are the days when you had to have a computer programmer setup your membership site. Thanks to Wordpress, among the most-used and most-supported content management systems on the planet, you can have your very own membership up and running in **less than one hour**.

Don’t be fooled into thinking that you need to build a membership site around an Internet marketing niche, either. In fact, for many reasons, you’re probably better off staying away from the Internet marketing niche all together. Here are just a few of the **existing and profitable categories membership sites have been built around**:

- Cabin Enthusiasts**
- Fly Fishing Enthusiasts
- Wedding Professionals**
- Cruise Ship Workers
- Magic Enthusiasts**
- Acupuncture Professionals
- Digital Photo and Video Enthusiasts**
- Travel Lovers
- Golden Retriever Owners**
- Ferret Owners
- Gambling Information Seekers**
- Religious Groups
- Philosophy Lovers**
- Art Lovers
- Home Builders**
- Dress Makers
- Car Salespeople**
- Cross-Stitch Enthusiasts

And the list goes on...and on...and on...and on.

Basically, if you’ve got a hobby or an interest...there are other people with the **same hobby** and the **same interest** who will be willing to pay you, every month, for a place to further their interests and meet other people who share the share it.

It probably sounds too good to be true, but it’s really not. That’s not to say that it’s easy or that it’s free because it’s not. It’s going to cost you less than \$100 but it’s not free...

Keep in mind that other sites on the web will teach you how to build a highly-profitable membership website also...and they’ll gladly charge you \$500 - \$5,000 to do it. They’ll sell you highly complicated (and surprisingly limited) software to do it too...

Using Wordpress as the foundation of your membership site just makes sense. While other sites charge you a small fortune for proprietary software that runs your membership site (until it randomly decides to not run your membership site...because, let’s face it, most software breaks down every now and then), Wordpress is free.

Wordpress is also open-source, which means that some of the greatest programmers in the world are working together to keep Wordpress running in tip-top condition at all times. They’re not being **paid** to take care of Wordpress, they’re **doing it because they love it**.

Beyond the basic Wordpress setup, which is free, your membership-riches do require a plug-in that costs around \$25.00...The plug-in is something that’s widely available and, in fact, you can certainly buy it and download it on your own. All you’ll have to do then is install and configure it...

Which Is Where This Video Tutorial Comes In
