From: YOUR NAME

Dear Internet Entrepreneur,

How about I START with the bottom line?

That's right... I'm going to get straight to the point, because this new software SPEAKS FOR ITSELF.

Here it is:

This new software will bring new life to your web pages to increase your opt-in rate, improve your sales conversions, and keep visitors on your site longer. It will help you do all of this quickly and easily for a price that won't break the bank.

OK, that's the conclusion. If you're ready to grab it now while it's available, please...

Otherwise, keep reading and I'll fill you in on the details...

Video is the new wave of the internet-- everything is moving toward video. You already knew that didn't you?

But did you know that studies have shown that video can produce **89% better results** than static text?

What this means for you is that you DON'T have to be a 'Super Ad-Copy Guru' to be successful on the web. You could have a headline, sub-headline, and body text less than half as good as your competitor, **and still destroy them in lead capture and sales volume** by simply implementing this new technology into your page.

In other words, you can immediately **engage your visitors in an 'experience'** rather than just hoping your headline will capture their attention enough to continue reading your site-copy.

If you've been conducting business online for awhile, you've probably noticed that standard sales pages and lead capture pages are **not as effective as they were** a couple of years ago.

It takes a lot more to get people's ATTENTION these days, and they're tired of all the same old gimmicks.

Pop-up windows were great attention-getters for awhile, but then they got abused like crazy and people started blocking them.

There are some pop-ins that are essentially unblockable, but people have become blind to the current static pop-in technology. That's where the new *Video Pop-In Genius!* software comes into play.

We've found that people will WATCH video pop-ins, AND they actually LIKE watching them. After all, most people would rather watch a video than read a long boring page of text.

By using this new fluid technology to instantly engage your visitor in your offer, you are also subconsciously instilling the 'human' factor. In other words, your visitor automatically **trusts you more** because he or she SEES you - you are a real person that they can identify with and relate to.

In nearly 100% of all cases, **this human element will cause them to be more likely to buy from you or join your subscriber list.**

The problem until now has been how to combine the new unblockable pop-in technology with streaming video technology. It's only been accessible for expert programmers, and most of them haven't even figured it out yet.

I'm guessing you HAVEN'T seen an abundance of **video pop-ins**, right? My point exactly. This technology has **barely been tapped into**, and now is the perfect time to use it for YOUR business.

Video is here to STAY, and likewise, we believe this method will be productive for years to come. Like I said, people ENJOY watching videos on the internet. This is a way for you to combine the message **you** want people to see, with the method of delivery that **they** prefer.

This cutting-edge explosive new software will enable you to turn your site's visitors into subscribers in mere seconds! Just plug your opt-in form code into the software and you've got an incredible subscriber grabbing video.

You'll have the ability to interact with your visitors on a whole new scale, without the need for full length videos, and without slowing your page down. In fact, you will soon see that our exclusive video pop-in technology often loads more quickly than those static pop-ins that you have been using until now!

Here are some of the great features of the Video Pop-In Genius!

-  Instantly **GRAB Your Visitor's Attention.**
-  Immediately **Gain Trust!**
-  Create That Vital Element Of Rapport In **Mere Seconds.**
-  Visitors **'Feel' Like They Are Included Rather Than Targeted.**
-  Instantly **Command Your Visitors** The Moment They Arrive On Your Site.

Using The Software Is Simple As 1...2...3!

Step 1 -

Choose your video (any FLV or SWF will be fine) and choose the folder where you want to save the files. The program will **generate the files and code in an easy format** to **instantly implement** your new video pop-in on your site.

Step 2 -

Choose your options. We've given you lots of customizable features so you can make it **how you want it**. Choose the entry and exit directions and speed, the size of the pop-in, the location on the page, shadows, border, and more. You can also **customize it** with your own HTML and/or opt-in form above or below the video.

Step 3 -

Paste the code into your web page(s), upload the files, and **BAM! You're done.**

Remember at the top of this page I gave you the "bottom line" of what this new software is all about? Well now I've explained the details, and the bottom line is still the same...

BOTTOM LINE: This new software will bring new life to your web pages to increase your opt-in rate, improve your sales conversions, and keep visitors on your site longer. It will help you do all of this quickly and easily for a price that won't break the bank.
