The Amazing Tool That'll Allow You To Transform ANY Visitors Into Pro Banner Designers Even When They Don't Know A Tad Bit On Designing!

Dear Netrepreneurs,

You and I know that banner ads are cost-effective and efficient way of marketing products and services of a company. It provides direct traffic to your website as easy as just one click of a mouse, giving them information on a company's products and services.

What if you can empower your visitors or subscribers to make their own banners right from your website and **every single one of the generated banners carry your own branding, domain name or any other sites you would like to drive traffic to?**

Add a highly demanded service to an automatic mechanism for them to refer to your site and you, my friend might have a **viciously viral traffic....**
That's where you come in.....

Imagine the **benefits of being the one providing this free solution?** As the free solutions provider of this type of Banner Generating service, you'll be in **control over the page your visitors see when they create their banners .**

And Here's How The Users Are Going To Help You Virally Market Your Service:

We kinda figured...what good can a free Online Banner Generating service do when there's no easy way for your users to refer their friends to your service?

So we had this Automated Viral Mechanism built in!

Imagine users generating their banners that carry your brand, and every single banner generated from your site will market your branding on their sites, referring more marketers who would like to use this AWESOME banner making system...won't that bring a tidal wave of traffic surging to your site? (You'd better increase your bandwidth because this can be really overwhelming)
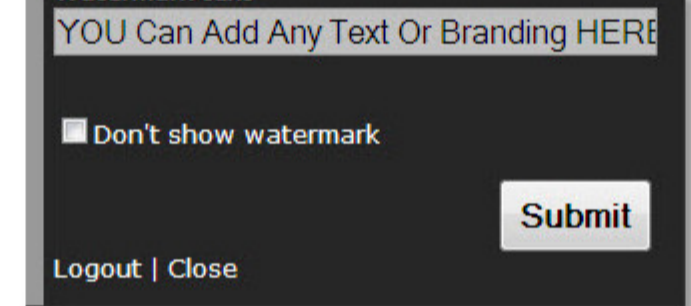

Offer Free Banner Making Service With BannerDev PHP Script

Viral element refers more users to your website/services

Then these users (referred by your initial users) use your free banner generating service...and it goes on and on and on! **It's a vicious viral cycle where of course you as the owner of this service benefit!** :)

Full Control On Automated Branding Watermark!

And as the administrator, you'll be able to **edit/disable the branding displayed on** your user's generated banner/s through a **secured password protected branding panel.**

Just Some Ideas How You Can Benefit From This Excellent Viral Tool Right Away!

- *Cater it to a sub-niche and build your list!* -Instead of targeting the masses, why not target a small market group where you can easily penetrate with this much needed tool!
- *Add in your Adsense codes to make more money!*- When the traffic comes in, why not maximize on that by placing AdSense on your free Banner Generating Service?
- *Add in some banners to market related products!* -...why not just build a site around this page and place banners to other products you market?
- *Automatically build up your site's popularity by boosting your ranking on Alexa!*- Alexa will index your site in no time at all and since all the links will come through your domain name, **your domain name will be seen as a high traffic domain**...Then if you decide to let go of this business, your site will instantly be **valued at a high price tag** for it's high traffic!

Just think about it....while these are just some ideas on how you can leverage through BannerDev...picture what you can gain when you **add a little imagination.** ;)

No Technical Experience Required!

"Wow! That's awesome! But David, I am not really a techie person....and I don't really know database configuration...how can I use your software?"

BannerDev comes packed neatly in a desktop installer that'll allow you to configure and **upload your configured BannerDev website through it's built in FTP program in mere minutes!**

...and we assume that most **just hate the idea of configuring MySQL DB** because it's way to technical....so BannerDev was built without any MySQL config to worry about!
Now you might be thinking that a much needed, excellent tool like this will cost an arm and a leg...

If you had to hire a programmer to create this system for you, you could **spend upwards of $1200 to $1500 dollars to have this put together**... But, I'm not going to ever come close to that price!

But like all great things, the end product turns out to be so amazing that it can be **applied to other tasks and other industries as well.**

And what we have right now is just the **tip of the iceberg**.

Own this magnificent solution today and **conquer new grounds** with the power it'll give you!
