I know your time is valuable, so I'm just going to give you a quick description of this incredible program...

This handy software allows you to spider any website and find a keyword phrase or URL. It returns a list of pages matching your search.

- Provides a fast and easy method of locating all instances of a specific phrase within all the pages of a website.
- Search options allow you to establish how deep and how far the spider should go - maximum depth, current directory, entire site.

Includes software user guide with easy step-by-step instructions!
